

Time series

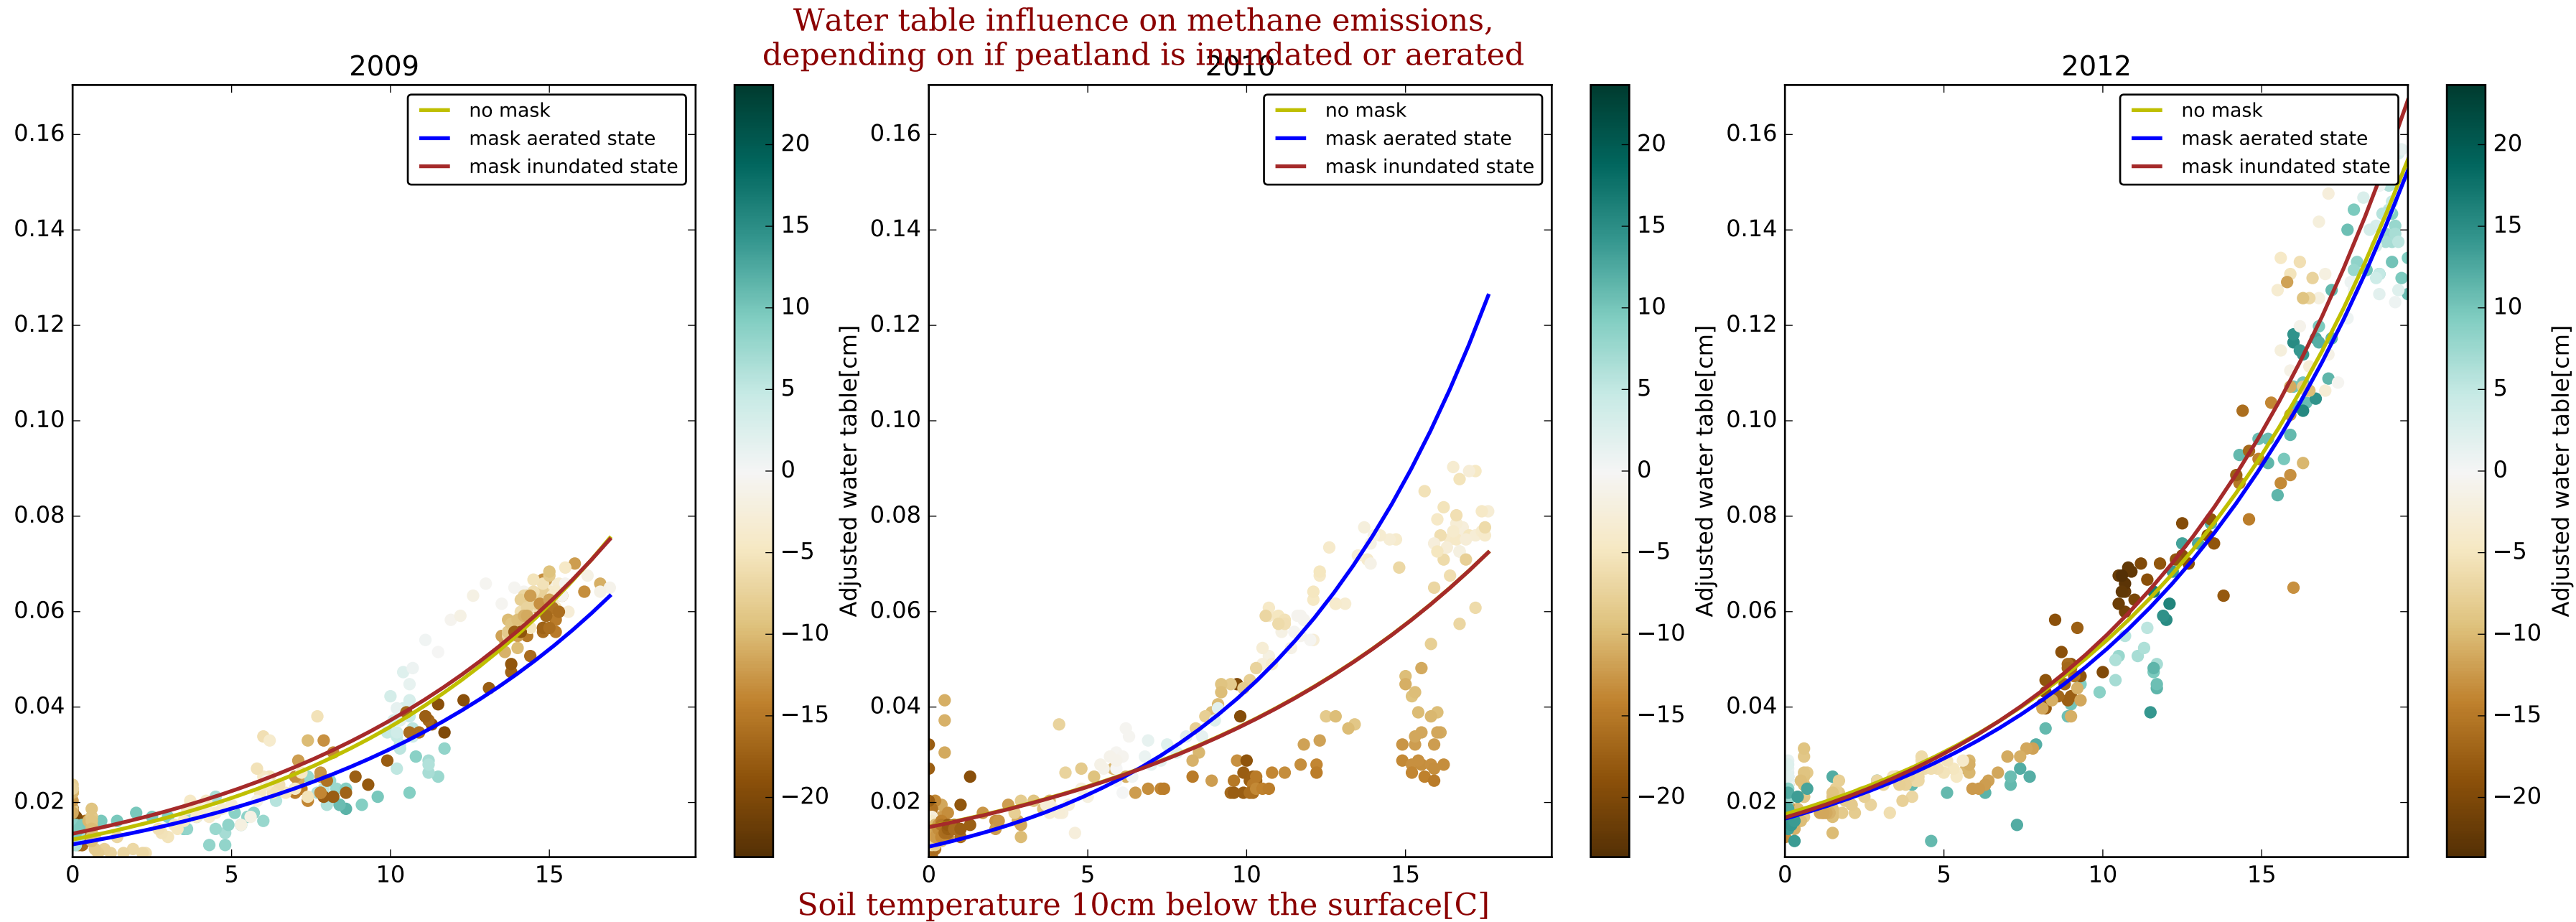

Water table influence on methane emissions,
depending on if peatland is inundated or aerated

Methane S1[C]

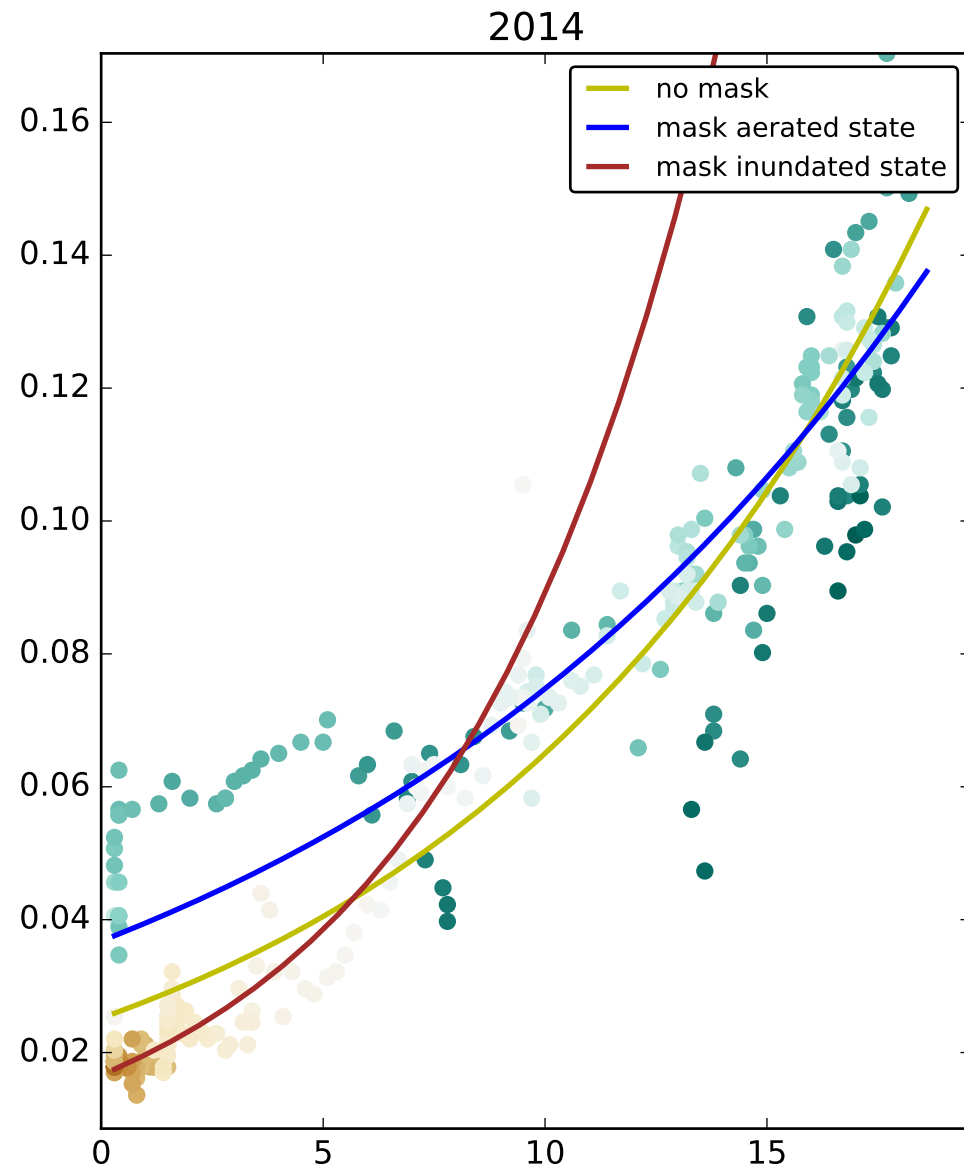

Soil temperature 10cm below the surface[C]

Methane S1[C]

Methane S1[C]

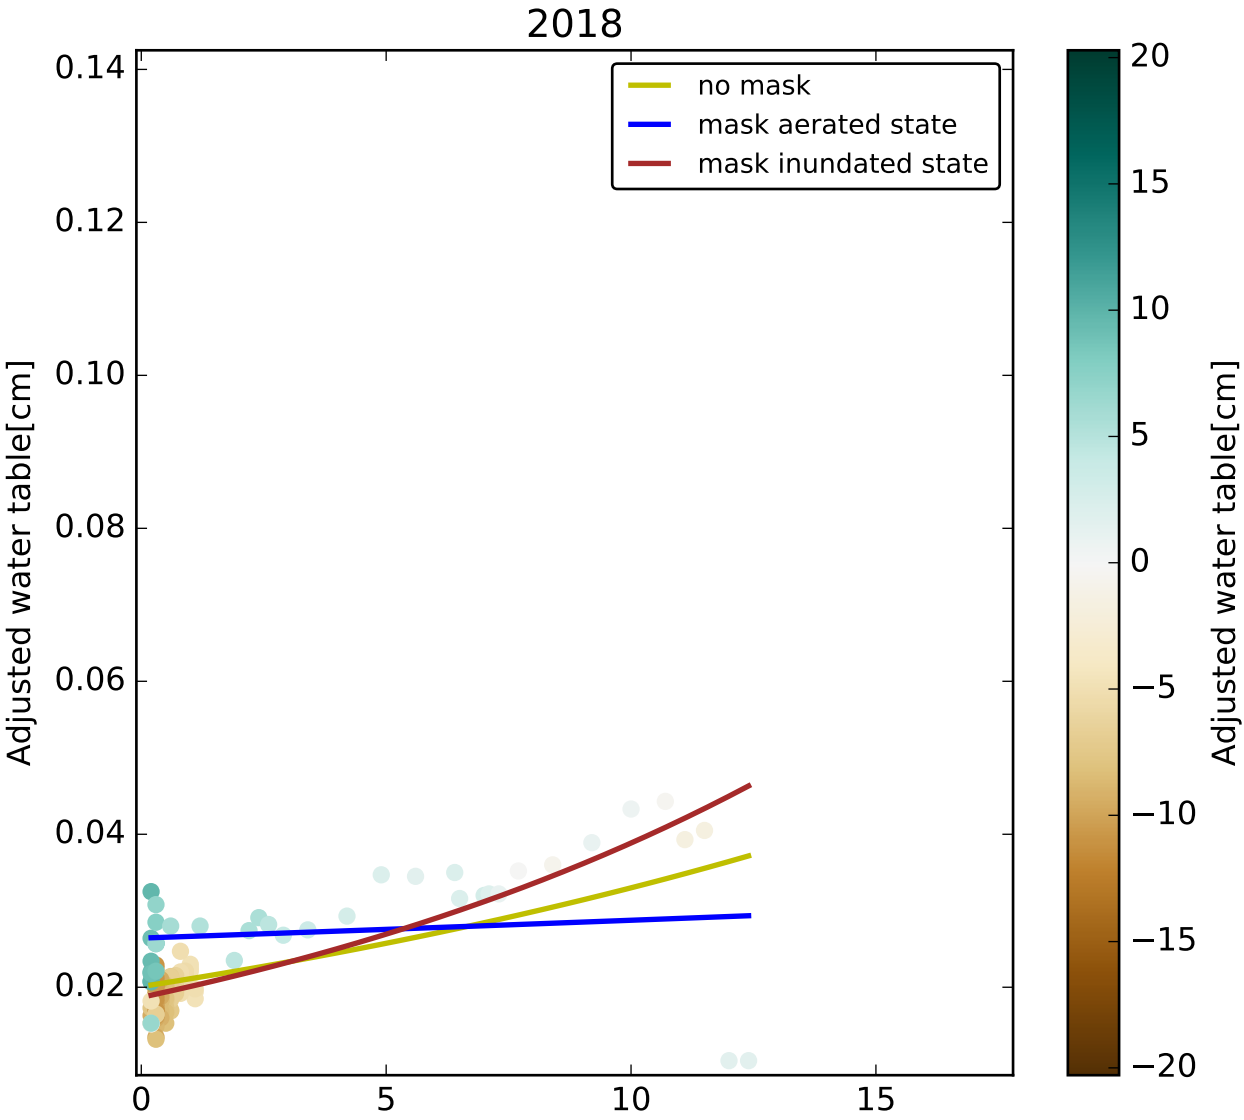

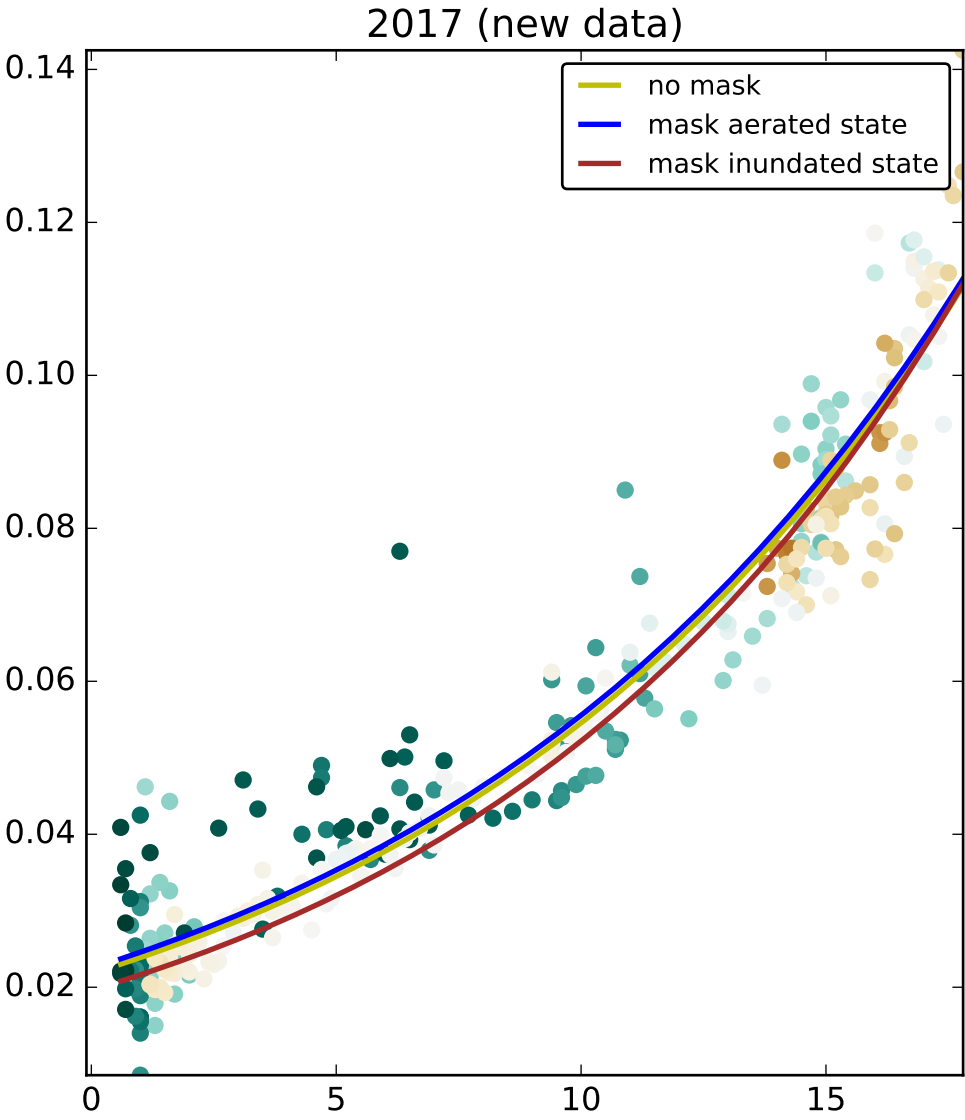

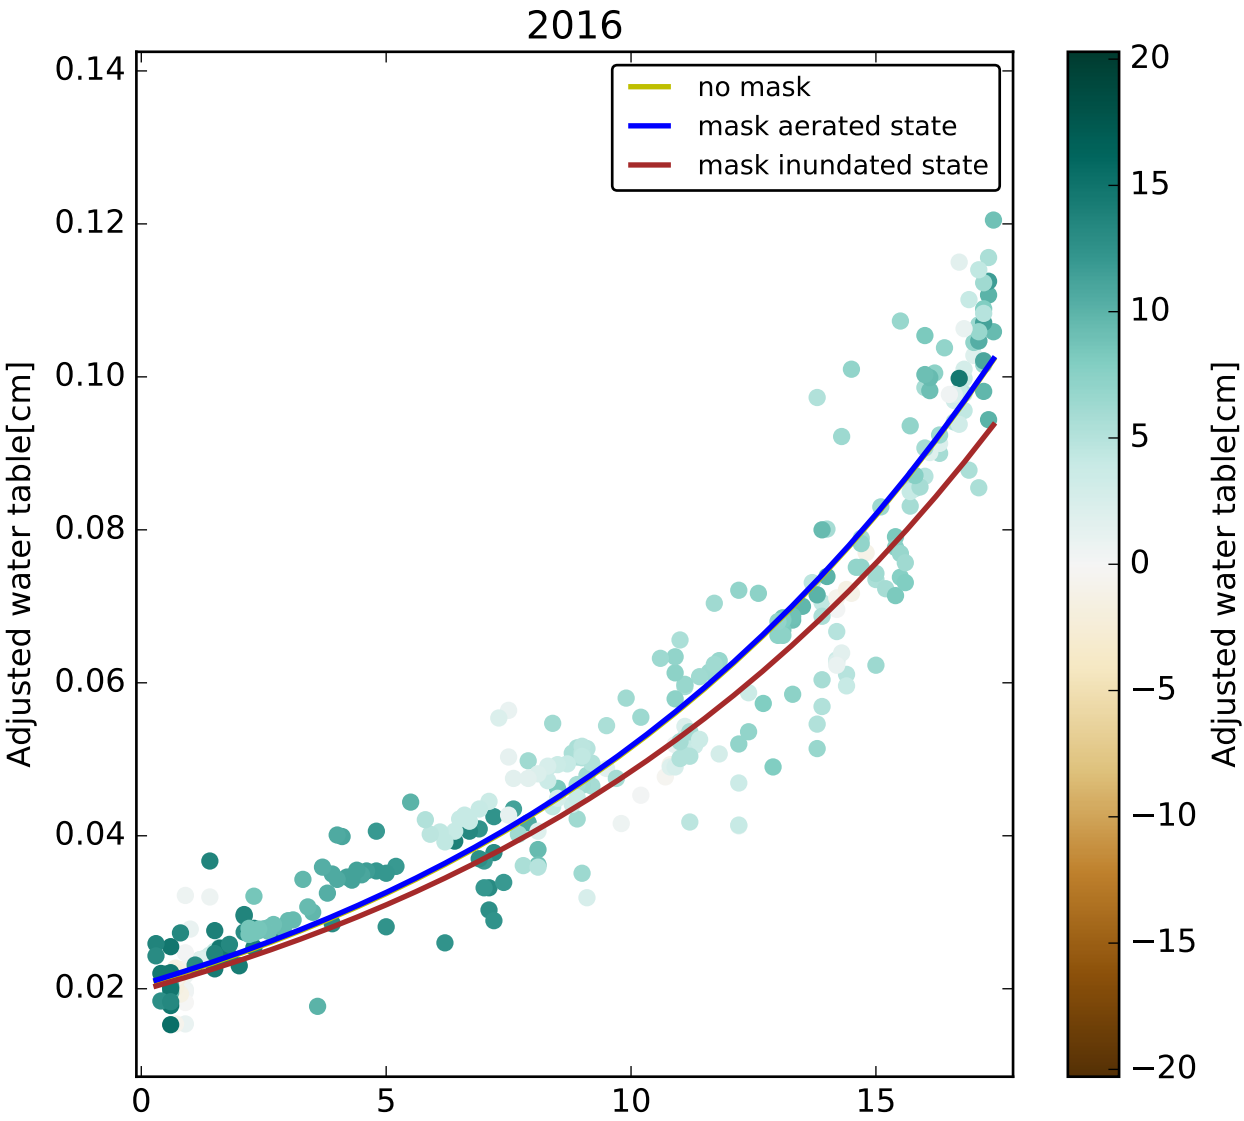

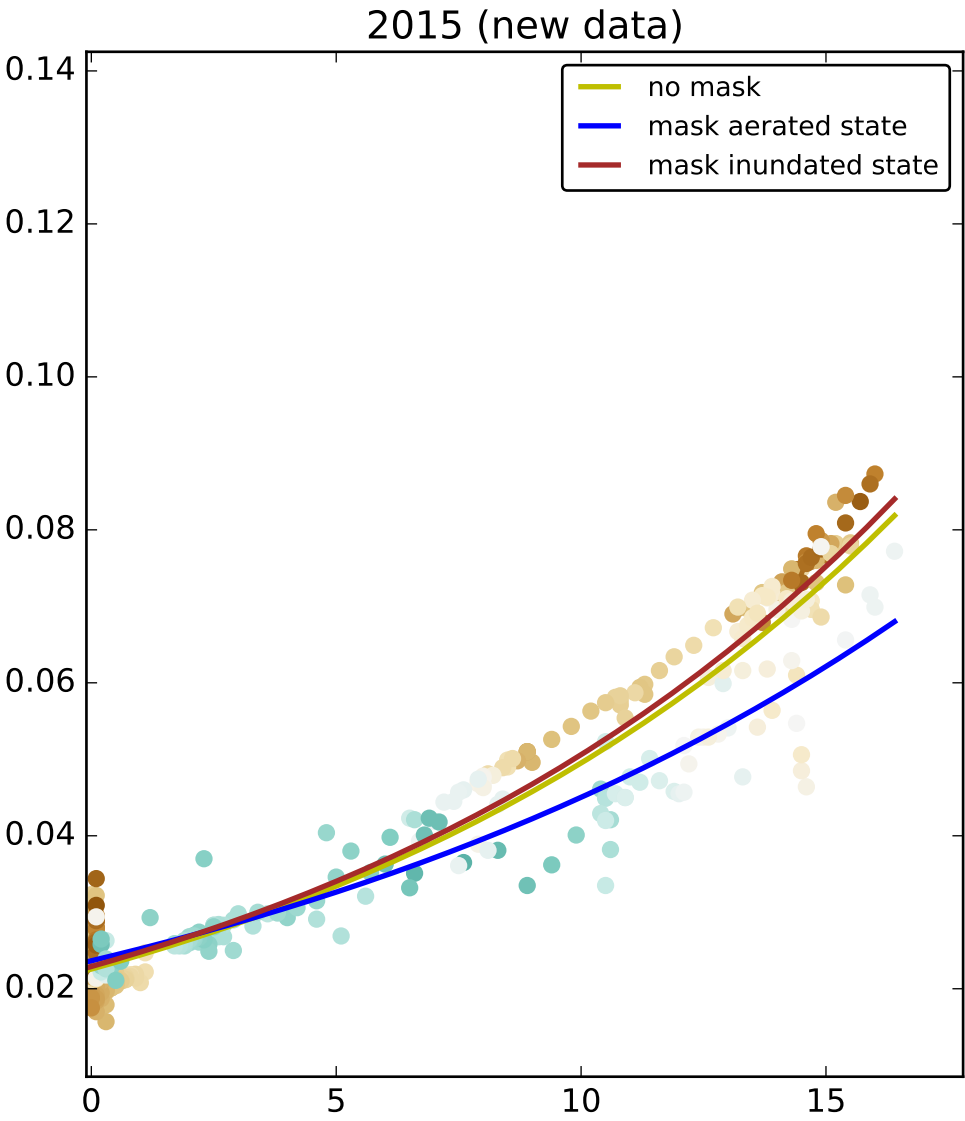

Water table influence on methane emissions,
depending on if peatland is inundated or aerated

Soil temperature 10cm below the surface[C]

Water table influence on methane emissions,
depending on if peatland is inundated or aerated

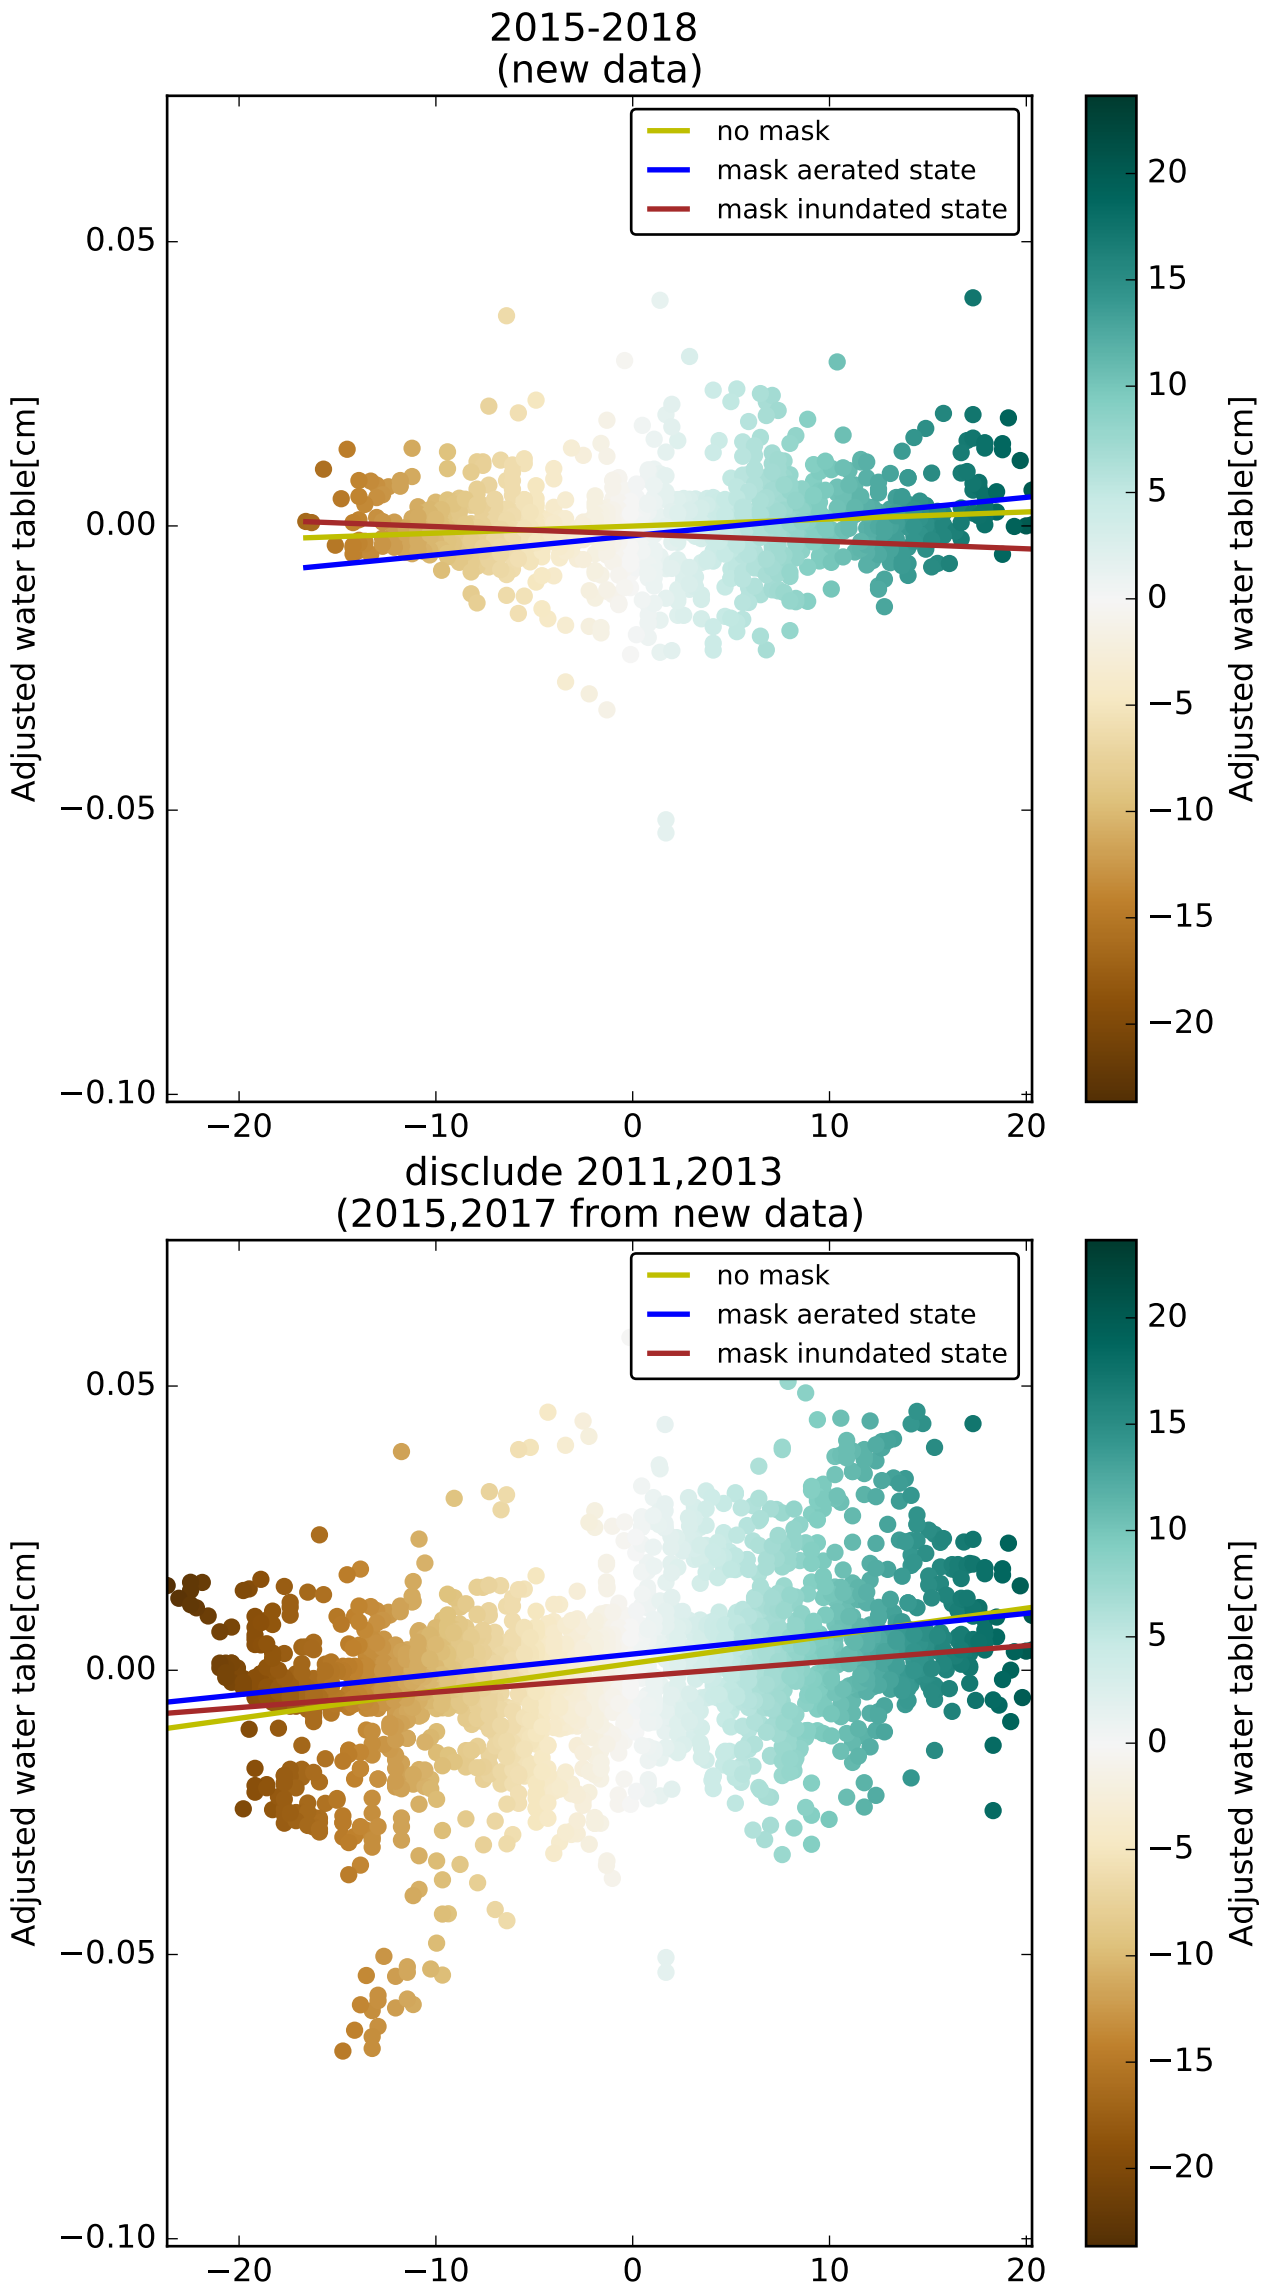

Methane S1[C]

Soil temperature 10cm below the surface[C]

Water table influence on methane emissions,
depending on if peatland is inundated or aerated

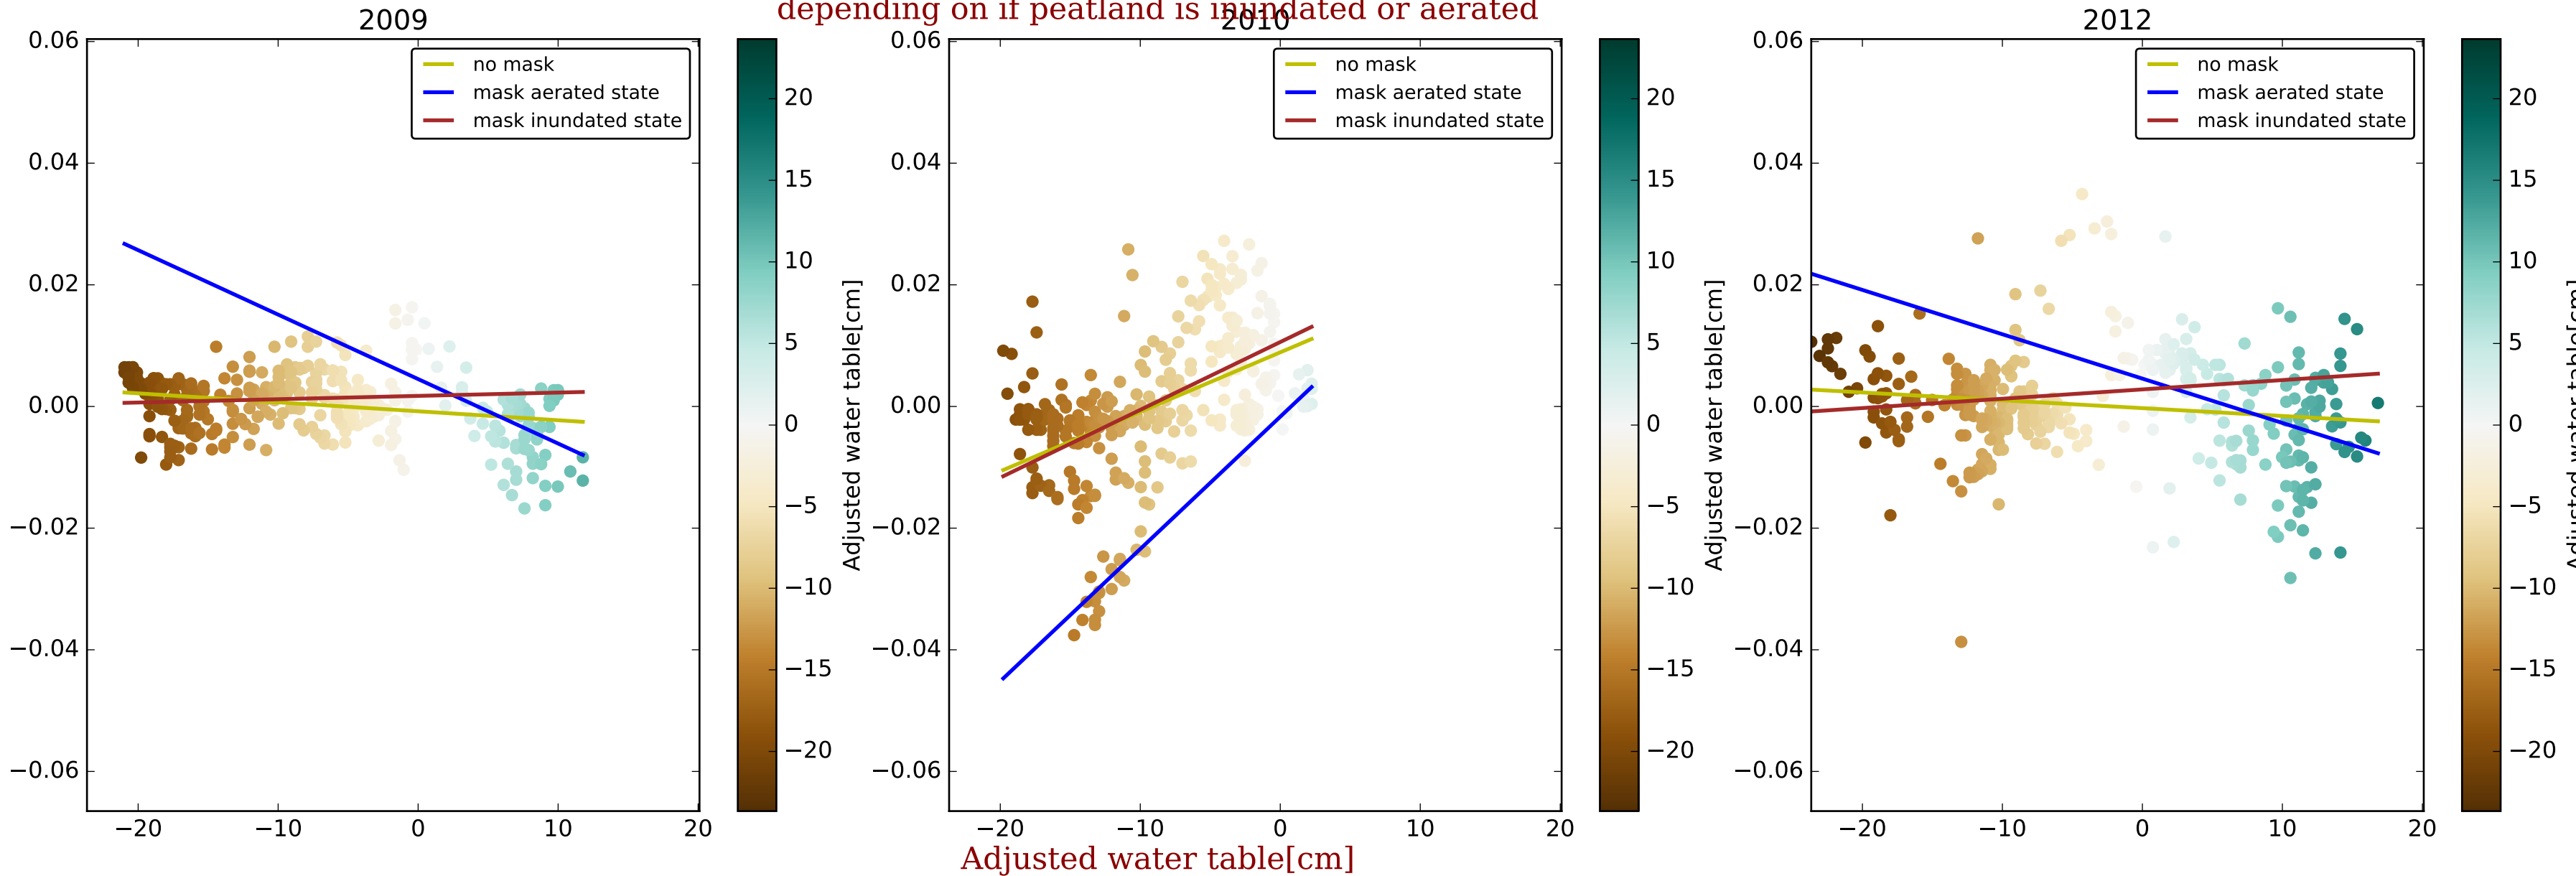

Methane S1 (deviations from expected)[cm]

Adjusted water table[cm]

Methane S1 (deviations from expected)[cm]

Water table influence on methane emissions,
depending on if peatland is inundated or aerated

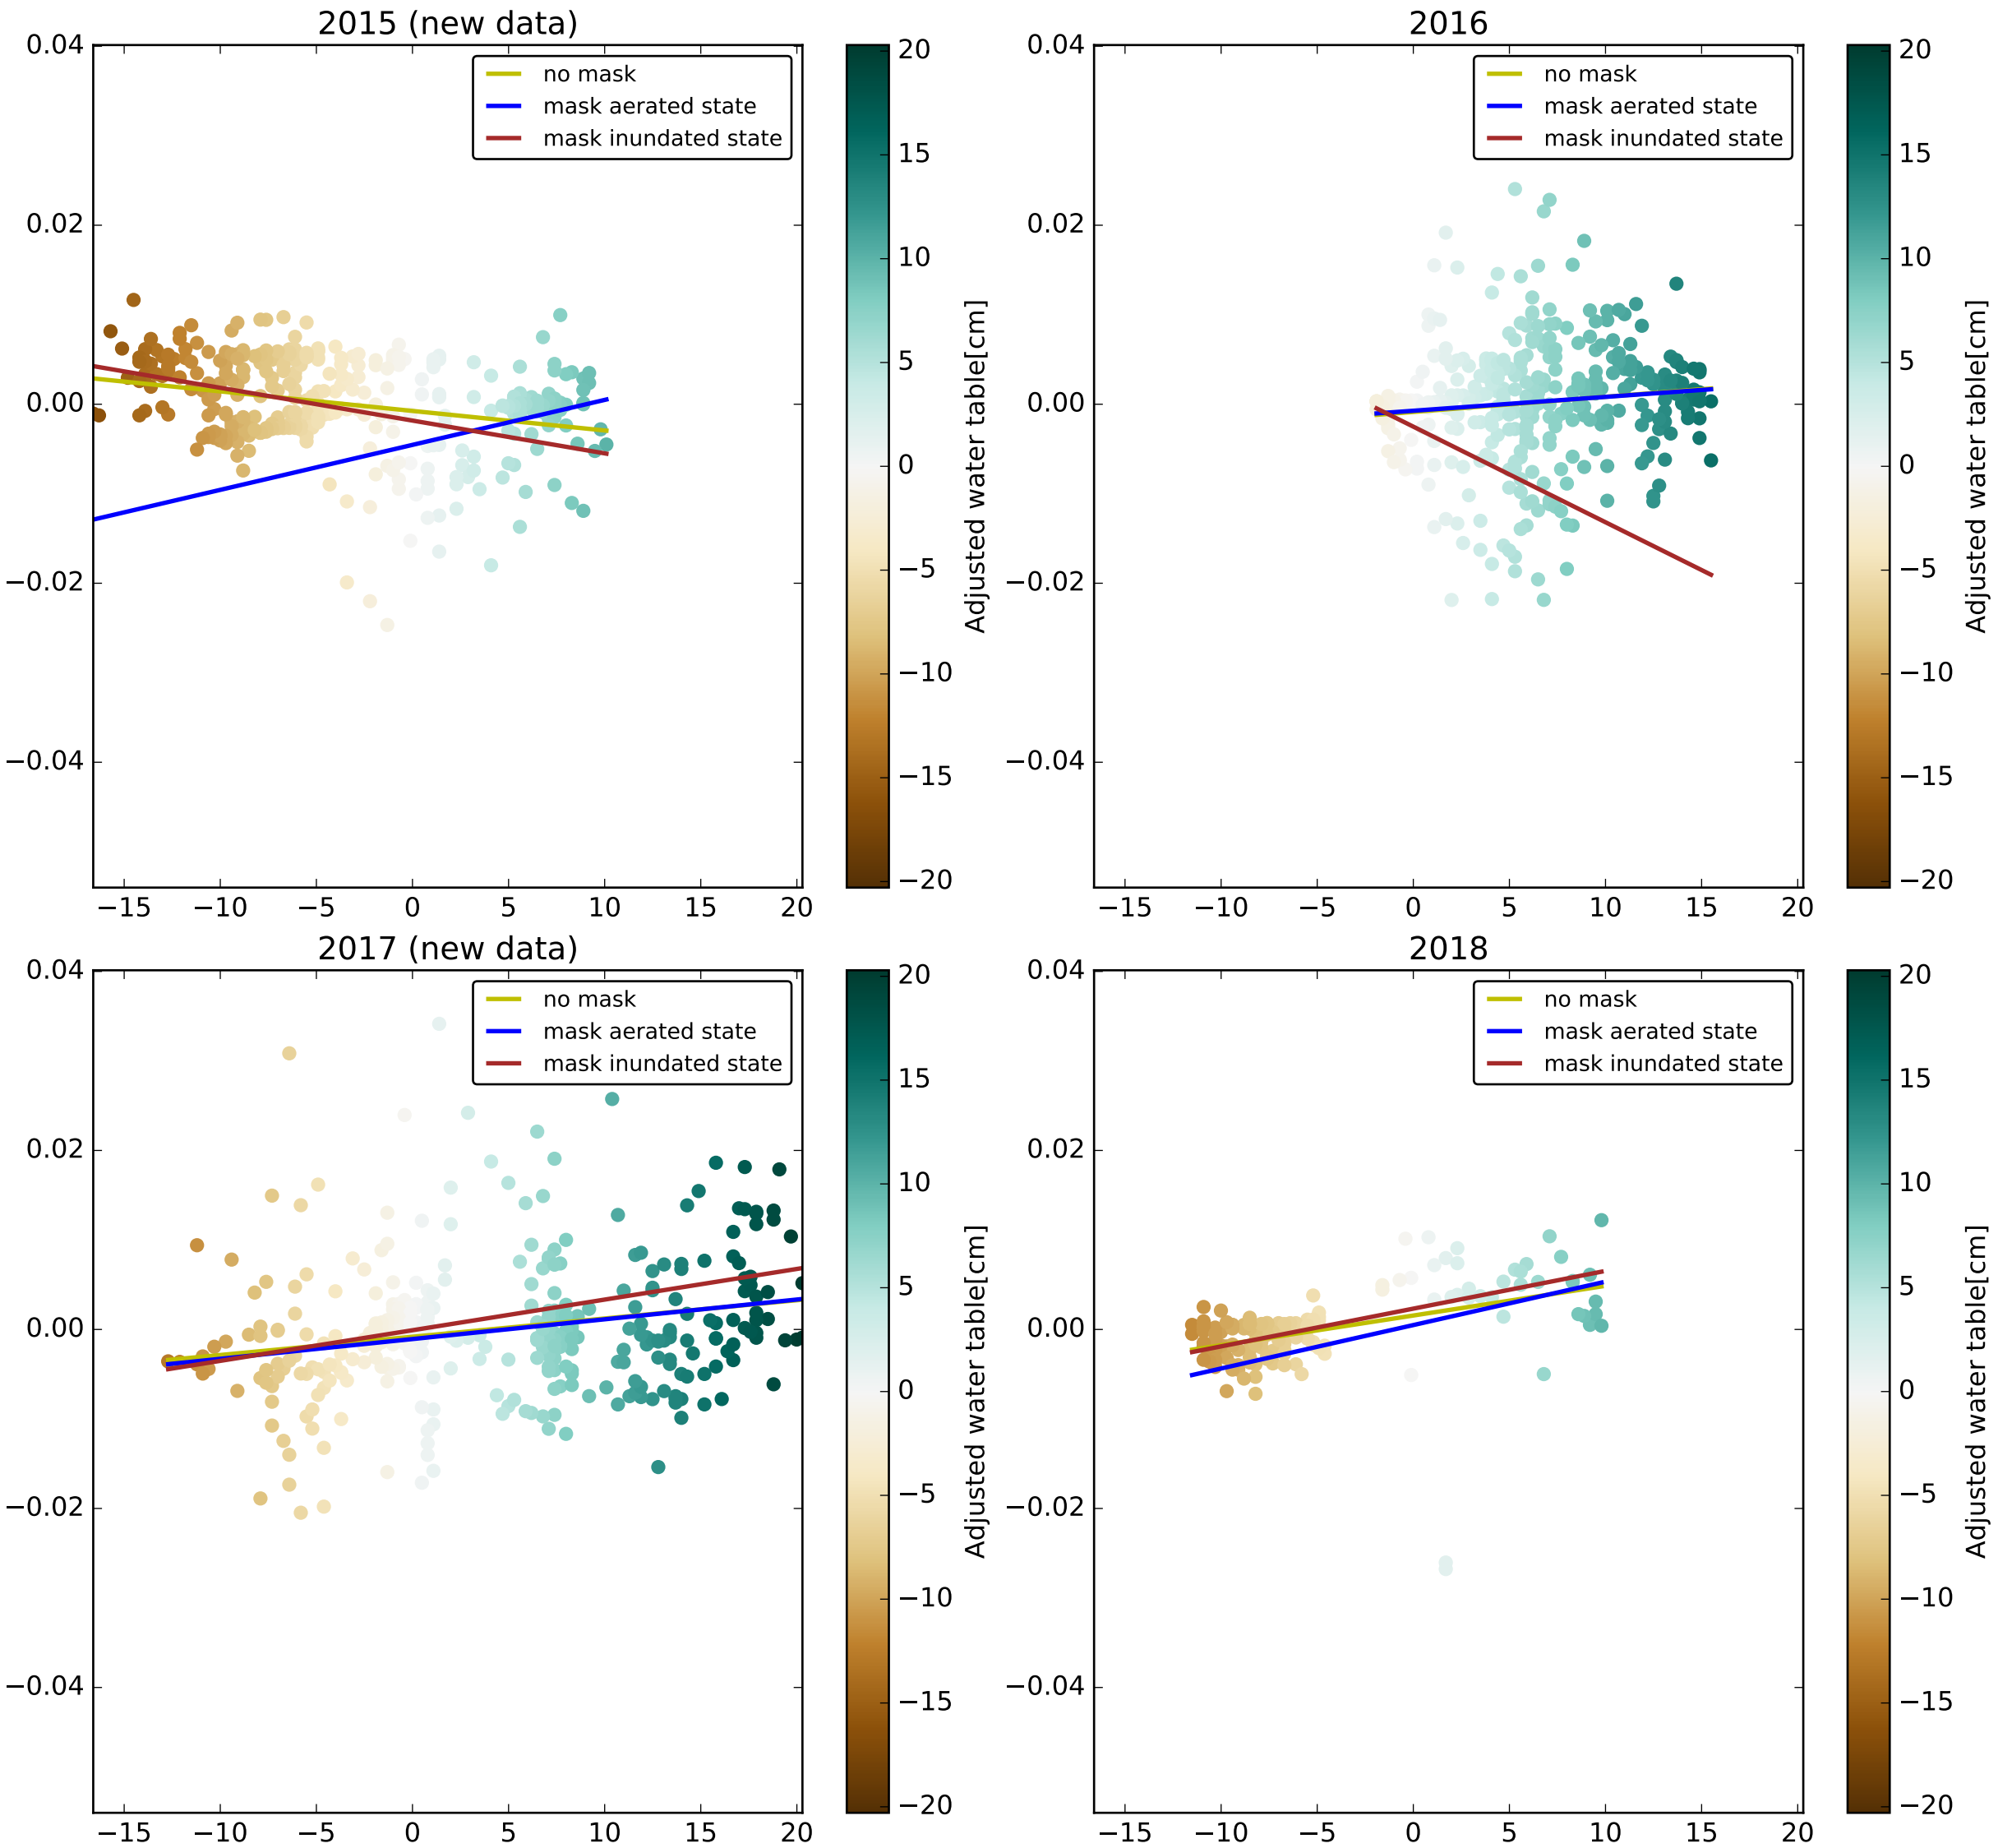

Methane S1 (deviations from expected)[cm]

Water table influence on methane emissions,
depending on if peatland is inundated or aerated

Water table influence on methane emissions,
depending on if peatland is inundated or aerated

Methane S1 (deviations from expected)[cm]

Adjusted water table[cm]
